

PER 333: Isolation and Quarantine Response Strategies in the Event of a Biological Disease Outbreak in Tribal Nations

PER 333 is a 16-hour, DHS/FEMA-certified, tuition-free, performance-level course. The purpose of this course is to provide tribal nations with the knowledge, skills, and abilities necessary to effectively detect, respond to, and mitigate a disease outbreak, using a whole community approach. This course will include a practical exercise designed specifically to meet the needs of tribal communities. Participants will apply the knowledge and skills learned through the exercise that will require them to describe zoonotic response plans, partners and distinctive aspects of emergency response in tribal communities. They will be able to apply lessons learned to implement isolation and quarantine strategies. Participants will select appropriate personal protective equipment and demonstrate the knowledge and skills necessary to maintain responder safety when using personal protective equipment while responding to a biological disease outbreak. Related course: MGT 449:Community-Based Response to All-Hazards Threats in Tribal Communities.

Topics include (but not limited to):

- Whole community response to a biological disease outbreak
- Tribal community needs in formulating an effective response to a biological disease outbreak
- Applying community-wide isolation and quarantine procedures
- Maintaining responder safety in the event of a biological outbreak

Who Should Attend:

- All first responders
- Healthcare professionals
- Emergency management personnel
- Community mental health personnel
- Community stakeholders
- Tribal Agencies / Tribal Leaders
