APRIL 25TH ONONHAROAIA:

The Iroquois Legacy of Dream Sharing

- Did you know that the Iroquois saw the importance of dreams over 200 years before the famous psychologists Sigmund Freud and Carl Jung realized their importance?
- Do you want to understand those crazy, puzzling dreams you've been having?
- Come join us at the SNI Library for an informative session about dream symbols, dream types and the cultural significance that dreams played in the Iroquois culture.

This seminar is presented to you by the SNI Library and Marla Pinnecoose, Turtle Clan, in order to promote cultural and educational knowledge of the Seneca and Iroquois history.

**Bring that crazy
dream you've been
meaning to find
out about!**
