Coding Club Microsoft Training

On Thursday April 21, 2016, the Lake Shore Middle School Coding Club was able to attend Microsoft training at the Microsoft Store at the Walden Galleria Mall. As part of the Coding club, Joise and Hogaiyo: John, Hayden Haynes, and Antonio Pellot attended this trip. Students were able to use the newest Surface Pro Computers to build games while working with designers from Microsoft. The club meets on Mondays and Wednesdays after school to work on coding projects. Students have completed the *Hour of Code*, and used the **Scratch** website to create some of their own games. While talking with 8th grader, Hogaiyo: John, he feels computer coding is something he could see himself learning more about and having as a future career path. The students had a wonderful on their field trip, which was the culmination activity for their club for the year. Congratulations to these four gentlemen for not only representing Lake Shore Middle School but also the Seneca Nation so well on this trip.

EXTRACURRICULAR ACTIVIES IN GOWANDA

Stephanie Gernatt

Springtime sports are in full effect here at Gowanda Middle School. Several of our students are participating in a variety of activities. Some of the sports include: Boys and Girls Lacrosse, Track, Softball, and Baseball. In addition, some middle school chorus students put on a show at Shea's Performing Arts Center on Saturday, April 30th. Balancing academics and extracurricular activities can be overwhelming. If your child is in need of extra help to stay on top of his or her studies during the sports season, the JOM after school program is available. Please continue to encourage your child to maintain passing grades in order to participate in these extracurricular activities. Per school policy, if a student is failing 2 or more classes, they will be "red-carded" and ineligible to play in any games until their grades improve.

A comprehensive list of GMS sports can be found at:

STEP Students Visit Behling Simulation Center at UB

On April 8th, Lake Shore Student members of STEP toured the Behling Medical Simulation Center at UB. The center is designed to emulate a real hospital with real-life scenarios. Medical and nursing students use the center to practice procedures and patient care. The STEP Students were given the opportunity to practice CPR on the “patients” and see if they could supply enough oxygen for the “patient” to survive. Ms. Teresa VanAernam arranged the trip; she is the coordinator of the SUNY Fredonia C-STEP/STEP Programs.

JOM Homework Help

With the weather FINALLY warming up the Silver Creek Elementary JOM homework help students have been able to get out on the playground. Once all of the students have completed their work we head outside to play for 20minutes on the playground before their school day begins at 8:50.
