

## *Securing the Seventh Generations Presents: A Community Potluck Gathering*

The Securing the Seventh Generation (SSG) group recently returned from an enriching experience at the World Indigenous Suicide Prevention Conference in Rotorua, New Zealand. The purpose of the trip was to learn more about the problems that indigenous communities face with a specific focus on our youth. Our hopes are to share experiences from the convention and discuss ideas for improvement for our communities. To start a dialogue that revolves around indigenous issues, SSG will be hosting a potluck where we will be able to discuss this in a casual setting. Please feel free to bring any food or drinks!
