The climate crisis affects us on a global level; life-support systems are necessary to make our world habitable for the future of humanity. The theme for Earth Day 2020 is climate action. The climate crisis presents us with an enormous challenge but also provides vast opportunities if we take proper action!

Take public transit, bike, or walk when possible – it is good for your health, your wallet, and Mother Earth. Support companies driven by sustainability and committed to transparency throughout the supply chain.

Have a good mind! Hold yourself accountable! Take a personal inventory of your own impact on the planet. Advocate for people and Mother Earth!
